Its the band members favourite album which started a love and passion for "The Killers" music. OASIS Tribute OHASIS ...What's the Story? Ohasis were formed early in 2009. The members of the band met whilst playing in other Oasis tribute bands. Ohasis got together with the goal of forming the ultimate Oasis tribute band. Every effort has been made to make an Ohasis gig as authentic and as up to date as possible learning the songs in their most current live form, getting the look of the band spot on and using the same instruments that Oasis use to help capture and reproduce the energy, atmosphere and that unmistakable live Oasis "wall of sound"

DELAIN Although originally envisioned by Martijn Westerholt as a musical project featuring a host of guest musicians, due to the high demand for live performances a real band was formed. This led to the Roadrunner release of Delain's debut album 'Lucidity' in 2006. The group of musicians quickly transformed into a solid rocking force. Leading to what has become a versatile band with an impressive new album called April Rain.

WINGER

Tickets £16.50 Doors 7pm

A former bassist of Alice Cooper's band during the mid eighties, Kip Winger went on to form Winger together with guitarist Reb Beach, keyboard/guitarist Paul Taylor and drummer Rod Morgenstein (formerly of Dixie Dregs). Taking the name from its leader, Winger specialized in winning melodic metal formula, with strong influences from bands like Van Halen, AC/DC and Whitesnake. The band's eponymous debut in 1988 sold over a million copies on the strength of singles like "Seventeen" and the ballad "Headed for a Heartbreak". Winger's second album, 1990's "In The Heart Of The Young", was slightly more melodic and showed a more mature and technical approach to the songs. It reached an equal success, selling over a million copies and featuring the hit power-ballad "Miles Away".

Wednesday 21st April Tickets £15 Doors & .30pm

The eight-legged beast that first crept around Britain's seedy clubs over twenty years ago and finally surfaced as The Wonder Stuff are coming back and with most of the UK still stuck firmly in an era of celebrity obsession and surreality TV excess, The Wonder Stuff have stripped back the groove machine to basics and come up with records that bear all the hallmarks of the musical genius that made them one of the biggest bands of the Nineties. Leading the battle charge are founder members Miles Hunt (vocal/guitar) and Malcolm Treece (guitar/vocals), ably assisted in the trenches by former RDF bass man, Mark McCarthy, New York rockers' Love In Reverse drummer Andres Karu and newest recruit Erica Nockalls on fiddle

Danny Vaughn in his own words

"I've been around for a while so if you don't know me, the quick run through is: Waysted, Tyketto, Flesh & Blood, Vaughn, From The Inside, for my personal history. I've also recorded with Yes, Riot, Tony Harnell, Gary Hughes, Hot Action Cop, Fabrizio Grossi, Nexx, Jorge Salan, and a host of others."
